LIMITED AIRFRAME CAPABILITIES LIST

14 CFR Part 1.1 Definitions:

Airframe means the fuselage, nacelles, cowlings, fairings, airfoil surfaces, (including rotors but excluding propellers and rotating airfoils of engines) and landing gear of an aircraft and their accessories and controls.

Maintenance means inspection, overhaul, repair, preservation and the replacement of parts, but excludes preventative maintenance.

Preventative maintenance means simple or minor preservation operations and the replacement of small standard parts not involving complex assembly operations.
